In consideration of the terms and covenants of this agreement, and other valuable consideration, the parties agree as follows:

RECITALS

BEFORE ME, the undersigned authority, CHUNHSIEN CHEN Notary Public, on this 8th day of July, 2006, personally appeared Affiant, known to me to be a credible person and of lawful age, who being by me first duly sworn, on his oath, deposes and says:

1. My name is Chih-Cheng Wang. I had been practicing treatment of ED for more than 20 years. I left Taiwan and came to United States in 1995. Between 1997 and 2003, I registered and maintained a private clinique at New York City and treated ED patients.
2. I invented the Erect-King ring in 1986, and I had been consistently improving its effectiveness since then. With this invention, I have treated successfully more than 5000 ED patients.
3. Among these patients, many had suffered severe ED for years. Many are resulted from age, trauma, diabetes, or other diseases. Many have tried other treatments before, including other ring-type devices, pump-type devices, medicines, but with partial or no success.
4. Based on my experiment and experience, characters of the Erect-King ring are crucial. These characters include physical dimensions and the elasticity of the material from which the ring is made. Since male member is a delicate organ, even slightly variation of the characters from my claims in my patent application could result in a huge difference in treatment effectiveness.
5. Based on my experiment and experience, method of using Erect-King ring is also critical to achieve a satisfying treatment. As described in the first Response to USPTO, the whole process is divided into two stages. At different stages, the ring is required to encircle at different markers in order to achieve different tightness on a male member. Such changes of tightness are critical for successful treatment.
6. Attached patient statements are provided by real patients of mine.

IN WITNESS WHEREOF, the party hereto has executed this affidavit on the date first above written.
